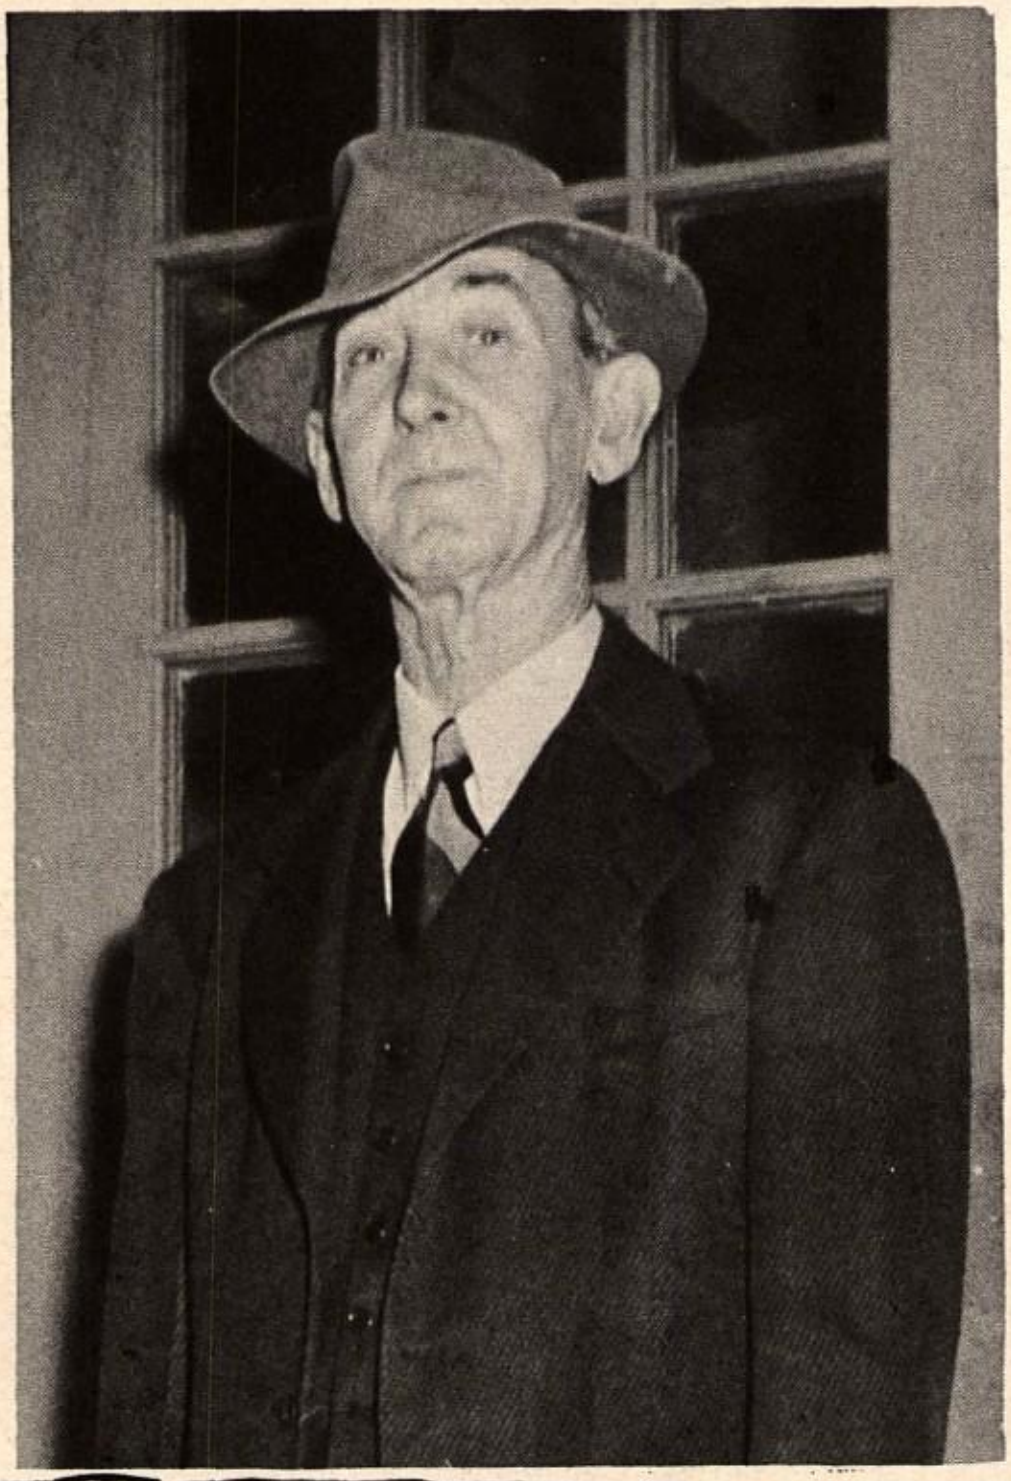
Presented by the students

of Vernon High, 1947

Foreword

The Yamparika Staff of 1947 presents to the student body of Vernon High School a brief resume of the year—done up in the trappings of the western area of Texas in which we live. The range, the ranch, the wranglers, the cowboys are included—even the animals that live among us have a story to tell. May this book be a round-up of very pleasant memories for you in the years to come.



Dedication

There have been many in Vernon High School that have roped honors of all kinds. To W. C. Rosson, we dedicate this 1947 Yamparika; a real cowhand who has won our respect and love through his loyal devotion to his work and to his untiring efforts in behalf of the student body. Down through the years we shall always think affectionately of our good friend "Screw."

1. "Coach" Barnett is an A1 cowboy with us. 2. These three can solve your problems and get you a job that pays real money. 3. Patsy Shuman and Betty Allston belong in the same league with these two. 4. "Just pipe dem new boots, Mame!" 5. The "Straw Boss" of this Yamparika Rancho. 6. We were lucky to get these young, good-looking wranglers this year. 7. The "Chief Cook and Bottle Washer" of the outer office. 8. The "Foreman" of this bunch of Hoss Wranglers. 9. "That's telling 'em, Miss Tooley." 10. The guiding star of the BEST high school band in this fair state. 11. The whole Home Economics Department. Swell people, too. 12. We don't blame you for being proud of that new ring. 13. You can actually find scenes like this in this institution.

The Mixed Chorus was organized officially at the beginning of the second semester in this school year of 1946-47.

The interest of the student body in having a chorus of mixed voices was aroused by the appearance of the Amarillo Choir in the early part of the year.

At the beginning of this school year the boys had decided that they would like to have choral music. A few boys started the movement rolling and by the beginning of the second six weeks of the first semester a Boys Glee Club had been organized and was meeting in class regularly.

The main interest was to have a choir or chorus of mixed voices. In order to do this, the students met in extra sessions—during their noon hour and at activity periods. No class could could schedule for them until the next semester. After a few practice periods the chorus sang their first program at Christmas time. Eveyone was so well pleased with their efforts that they gained encouragement and incentive to work much harder.

They sang for many different groups and activities. They have traveled to near-by towns to give assembly programs in the high schools.

The outstanding thing about this organization has been their desire to sing and their willingness to work hard to make it worthwhile.

The band constitutes an important instructional unit of the Department of Music of the Vernon Schools. As such it offers to those who wish to be a band member very valuable and interesting experiences, both musically and socially.

The band serves the schools at large and the community in a great number of ways, chief among which can be listed: assemblies, indoor and outdoor concerts, civic parades, festivals, and certainly a very integral part in adding the colorful and glamourous between halves show at the football games.

The Vernon High Band is recognized as a very fine and capable organization throughout West Texas from its ratings received in competitive festivals, both state and invitation meets.
